

CBAM WEBINAR REGULATION PERSPECTIVE 20.11.2025. 10 AM CET

- How CBAM fits into the EU's wider decarbonisation strategy and global climate objectives.
- Budgeting for CBAM, managing risks, and preparing supply chains for rising compliance costs.
- Embedded emissions calculation, verification standards, and handling data from non-EU suppliers.
- Key issues across the seven CBAM-regulated sectors, and what importers can do to prepare effectively.
